Discussion Questions:

1. Do you ever see evil flourishing around you and wonder why God is letting it continue to prosper? If so, where or in what way?
2. Why do you think God allows this to continue instead of just wiping it out?
3. What does this tell us about God's character?
4. Can you think of any difficult times that God has brought you through and even though it was awful, you look back in appreciation for how He changed you and drew you closer through it?
5. Where do you find yourself sometimes searching for relief instead of turning to God for satisfaction & hope?
6. How does reminding ourselves of the Gospel help change our perspective when walking through a trial?
7. What are some other practical steps we can take if we're in the midst of a difficult trial and we're struggling to "live by faith"?
